Orion Energy Systems Introduces High Lumen LED APOLLO Troffer Retrofit

Summer release features 20 LED products including both retrofit and luminaires, expanding applications for Orion lighting in commercial, industrial, and retail

MANITOWOC, Wis.--(BUSINESS WIRE)-- [Orion Energy Systems](#), Inc. (Nasdaq:OESX), a leading designer and manufacturer of high-performance, energy-efficient retrofit lighting platforms, today announced the launch of the new [High Lumen LED APOLLO Troffer Retrofit](#) and twenty new LED products and luminaires for commercial, industrial, and retail facilities.

This Smart News Release features multimedia. View the full release here: <http://www.businesswire.com/news/home/20150817005367/en/>

The High Lumen LED APOLLO Troffer Retrofit is available in 7000 (2x2 and 2x4) and 9000 (2x4) lumen packages, expanding its use to now include broader retail and education applications. As the newest entry in the [industry's first patented LED Troffer Retrofit suite](#), this product features quick ship and easy installation, attractive design, optimized light delivery, and maintenance-free performance. The High Lumen LED APOLLO Troffer Retrofit is an ideal upgrade for schools, commercial, and retail facilities seeking to replace energy-consuming T8/T12 fluorescent troffer fixtures with high efficiency LED light sources.

New products now available also include:

- Seven (7) LED Emergency and Exit lighting product options.
- Ten (10) LED Exterior lighting products ranging from Wall Packs, Flood Light, Canopies, Garage, Area Street, Area and Site, Low-Profile Multi-Purpose Canopy, Garage, and

Multi-purpose Architectural Flood fixtures.

- LED Stairwell fixture with ultrasonic integrated motion sensor ideal for both interior and exterior applications.
- LED Industrial Pendant High Bay for warehouse, distribution center and manufacturing facility applications.

"This product launch strengthens our position as the full-service retrofit leader in the lighting industry by broadening our ability to replace inefficient lighting technology with easy to install, highly efficient LED solutions," said John Scribante, Chief Executive Office of Orion Energy Systems. "Orion is unique given our deep expertise in the successful execution of thousands of retrofit and upgrade projects. That knowledge inspires product innovations that reduce job-site costs and stress, maximize one-for-one replacements as well as rebates and incentives, and guarantee energy savings for years to come."

About Orion Energy Systems

Orion is leading the transformation of commercial and industrial buildings with state-of-the-art energy efficient lighting systems and retrofit lighting solutions. Orion manufactures and markets a cutting edge portfolio of products encompassing LED Solid-State Lighting and high intensity fluorescent lighting. Many of Orion's 100+ granted patents and pending patent applications relate to lighting systems that provide exceptional optical and thermal performance, which drive financial, environmental, and work-space benefits for a wide variety of customers in the retrofit markets.
